

Using **Graphics** built from open source data: Makes data **accessible** to those who need it most in order to **support social justice**.

Police are killing black people at persistently high rates

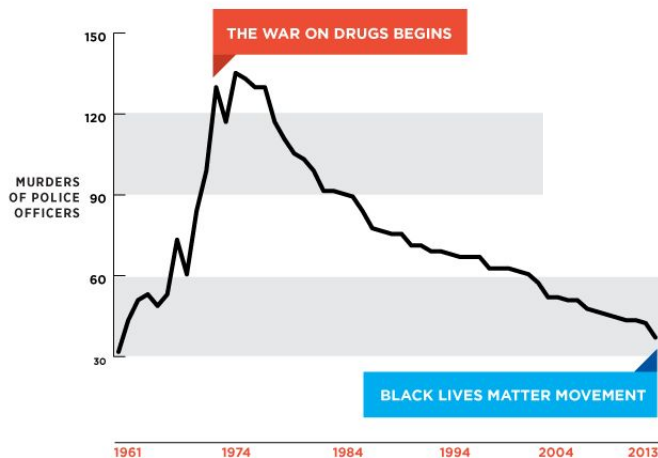

It's not about crime

Fewer than 1 in 3 black people killed by police in America this year were suspected of a violent crime and allegedly armed.

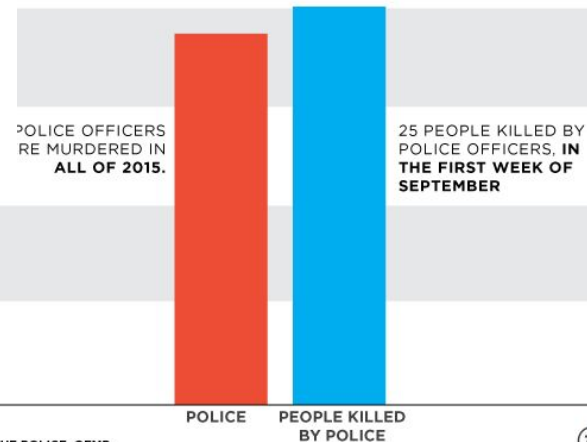

■ Non-Violent/Unarmed(69%) ■ Allegedly Armed and Violent(31%)

BEING A POLICE OFFICER IS SAFER THAN

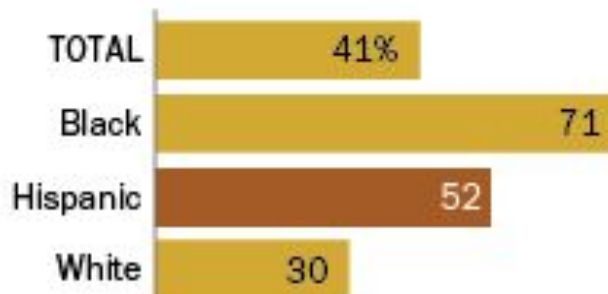

People Killed by Police in America, Jan 2013 - Sept 2016 (via mappingpoliceviolence.org)

---

## Young and U.S.-born Hispanics more likely to experience discrimination

*% who say they have regularly or occasionally experienced discrimination or have been treated unfairly because of their race or ethnicity*

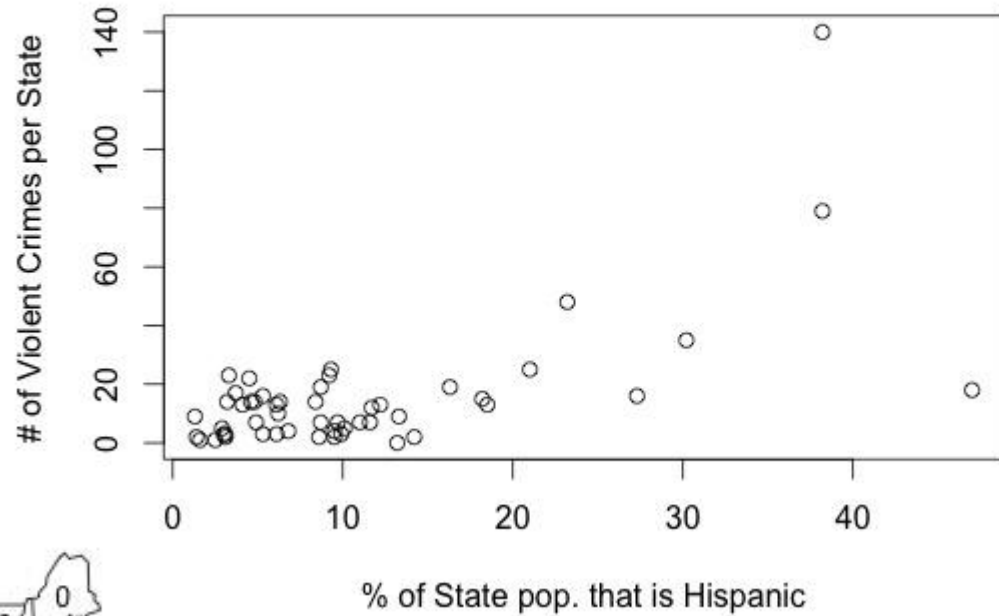

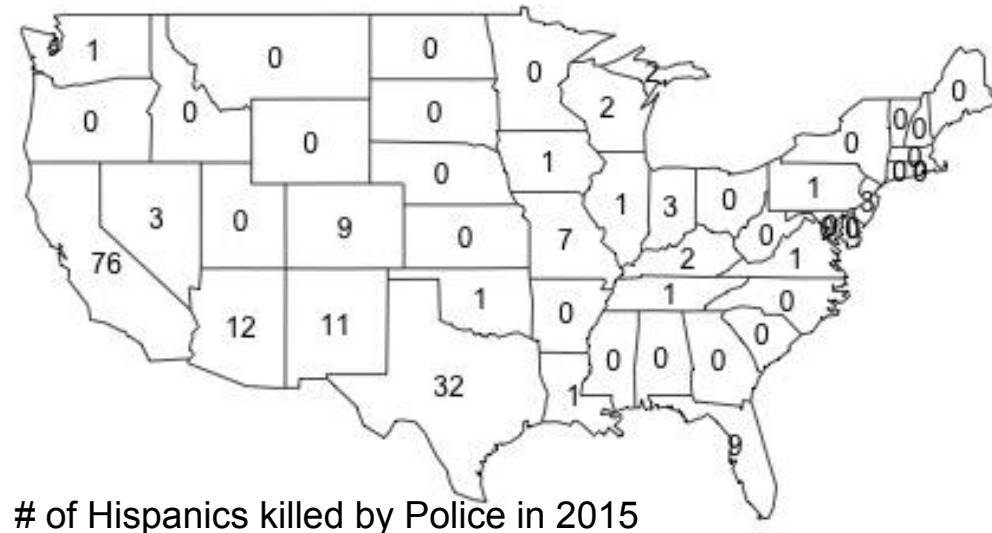

PEW RESEARCH CENTER

---

Take the data & perform more powerful **statistics** will lead to more powerful **graphics** → in turn better **policy** geared towards **tackling discrimination**.

More powerful statistics can help build **solidarity** amongst social justice movements.

**Specifically, I want to demonstrate the impact of police violence on Hispanic communities, to build stronger efforts & government policies that reduce that police violence.**
